Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

10 minutes to prepare
1 hour to collaborate
2-8 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

A. **Team gathering**
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B. **Set the goal**
Think about the problem you'll be focusing on solving in the brainstorming session.

C. **Learn how to use the facilitation tools**
Use the Facilitation Superpowers to run a happy and productive session.

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

> neora.io
> the achievement is leading a growing population, providing a livelihood for farmers, and protecting the environment and it gives best result and functioning as the good manner.

Key rules of brainstorming
To run a smooth and productive session

Stay in topic.   Encourage wild ideas.
Defer judgment.   Listen to others.
Go for volume.   If possible, be visual.

Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

ESAI SELVAN J

- make the accurate prototype
- we can able to access and understand the dataset and then give the correct visualization
- data sources that are accurate and up to date
- Creating only a graph and charts representation for dataset.

AHAMED RIYAS I

- Creating the dashboard that matches the capabilities of the user
- Ensure that the data clean and correct
- Creating systems to share measure
- Greater understanding of environmental challenges

SENTHIL KUMAR P

- Don't give the large text for data, use graphs and pie charts
- First check the charts are correct
- Get the feedback from the user
- Ensure that all people can access the data

VIJAYAKUMAR A& ABDUL RAHUMAN S

- Combination of relevant data from the multiple user
- Ensure that given data are correct upto date
- Select the correct chart type for the data
- Creating systems to share metrics

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

User view

It is user friendly for user and easy to access any place at any time

Metrics

It can help farmers monitor the health of crops in real-time, create predictive analytics related to future yields and help farmers make resource management decisions based on proven trends

Representation

select the correct visualization

Trend

Checking the correct and negative

- creating dashboard that matches the capability of the user.
- user can easily analyzes crop yields history
- Reducing waste and improving profits
- Greater understanding of environmental challenges
- we can view the dataset by using pie charts, bar charts, tables
- we can use the suitable charts for suitable dataset

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

Importance
If each of these tasks could get done without any difficulty or cost, which would have the most positive impact?

Feasibility
Regardless of their importance, which tasks are more feasible then others? (Cost, time, effort, complexity, etc.)

- It can help farmers monitor the health of crops in real-time, create predictive analytics related to future yields and help farmers make resource management decisions based on proven trends
- select the correct visualization
- user can easily analyzes crop yields history
- It is user friendly for user and easy to access any place at any time
- we can view the dataset by using pie charts, bar charts, tables
- Greater understanding of environmental challenges
- creating dashboard that matches the capability of the user.
- we can use the suitable charts for suitable dataset
- Checking the correct and negative

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

A. **Share the mural**
Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.

B. **Export the mural**
Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.
Keep moving forward
